- Installation Complete

Choosing a Setup Type

Please select the Setup Type that suits your use case.

☐ **Developer Default**

Installs all products needed for MySQL development purposes.

☐ **Server only**

Installs only the MySQL Server product.

☐ **Client only**

Installs only the MySQL Client products, without a server.

☐ **Full**

Installs all included MySQL products and features.

☒ **Custom**

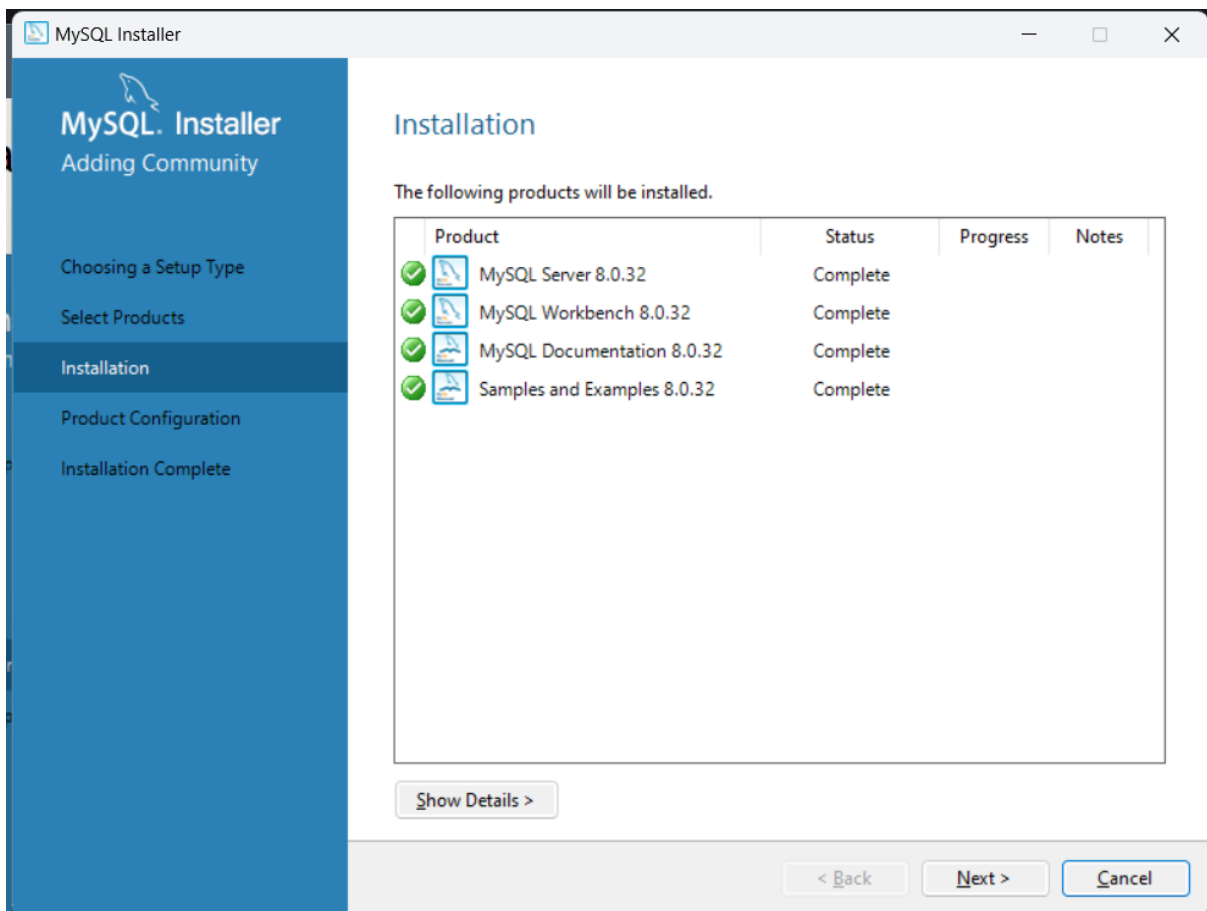

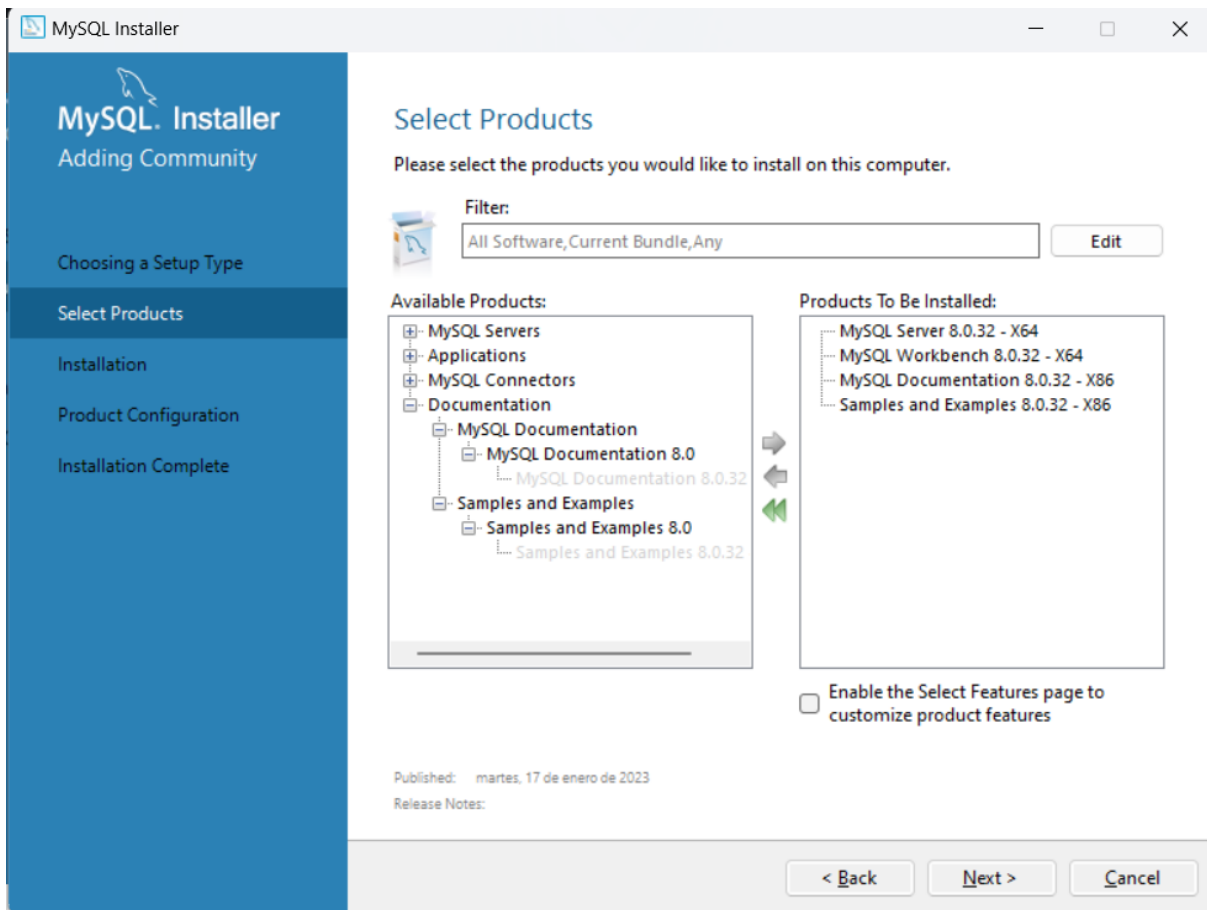

Manually select the products that should be installed on the system.

Setup Type Description

Allows you to select exactly which products you would like to install. This also allows to pick other server versions and architectures (depending on your OS).

The screenshot shows the 'MySQL Installer' window for 'MySQL Server 8.0.32'. The left sidebar contains a list of configuration steps: 'Type and Networking' (selected), 'Authentication Method', 'Accounts and Roles', 'Windows Service', 'Server File Permissions', and 'Apply Configuration'. The main area is titled 'Type and Networking' and contains the following sections:

- Server Configuration Type**: A text box labeled 'Config Type:' with a dropdown menu showing 'Development Computer'.
- Connectivity**: A text box stating 'Use the following controls to select how you would like to connect to this server.' Below it are three options:
 - ☒ **TCP/IP**: Includes a 'Port:' field with '3306' and an 'X Protocol Port:' field with '33060'.
 - ☒ **Open Windows Firewall ports for network access**
 - ☐ **Named Pipe**: Includes a 'Pipe Name:' field with 'MYSQL'.
 - ☐ **Shared Memory**: Includes a 'Memory Name:' field with 'MYSQL'.
- Advanced Configuration**: A text box stating 'Select the check box below to get additional configuration pages where you can set advanced and logging options for this server instance.' Below it is a checkbox labeled 'Show Advanced and Logging Options' which is currently unchecked.

At the bottom right, there are two buttons: 'Next >' and 'Cancel'.

The screenshot shows the 'MySQL Installer' window for 'MySQL Server 8.0.32'. The left sidebar is the same as the previous screen, but 'Apply Configuration' is now selected. The main area is titled 'Apply Configuration' and contains the following sections:

- A text box stating 'The following configuration steps are being executed.'
- A tabbed interface with 'Configuration Steps' and 'Log' tabs. The 'Configuration Steps' tab is active and shows a list of steps with progress indicators:
 - ☒ Writing configuration file
 - ☒ Updating Windows Firewall rules
 - ☒ Adjusting Windows service
 - ☒ Initializing database (may take a long time)
 - ☒ Updating permissions for the data folder and related server files
 - ☒ Starting the server ..
 - ☐ Applying security settings
 - ☐ Updating the Start menu link

At the bottom right, there are two buttons: 'Execute' and 'Cancel'.
